

Hi, Im a Software Developer with 3+ years of experience working in startups, building responsive

fullstack applications from deployment to maintenance,

I'm have completed undergraduate in computer science field from india.

Im a problem solver, focused and a hard worker in general

I can work collaboratively/individually on a projects,

I can adopt your coding standard and practices as well as different tech stacks

Primarily i can speak well in English, and my native Tamil.

I can work in remote as well as relocate,

case of relocation, i have all the documents and proofs necessary to apply for visa and further process

if im selected, i would like to remote or relocate and i would like to have relocation assistance if possible

Salary Negotiable

Sincerely,

Bruce Armstrong
